DETAILED ACTION

Remarks

This Office Action is in response to Applicant's reply of 10/18/04. The rejection of claims 1-19 of the previous Office Action is withdrawn and the following restriction under 35 U.S.C. 121 and 372 is required.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-15, drawn to an interferometer.

Group II, claim(s) 16, drawn to a method of manufacturing by spin coating.

Group III, claim(s) 17-19, drawn to a method of manufacturing by evaporation and condensation a polymer.

The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I is related to Groups II and III are related as process of making and product made. The interferometer can be made by

deposition and etching thus they lack the same or corresponding special technical features.

Group II lack the same or corresponding special technical features of Group III.

A telephone call was made to William Lee, Jr. on 3/4/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
